CAREER OBJECTIVE

An analytical and creative professional pursuing PGDM in Marketing & Business Analytics at Skips B School (St. Kabir Institute), Ahmedabad. Skilled in Excel, SQL, Power BI, data analytics, digital marketing, graphic design, web development, and 3D printing. Founder of Parmar Labs — building real-world tech products and aiming to deliver data-driven, impactful business solutions.

INTERNSHIP

Digital Marketing Intern – NBE Motor Pvt Ltd

May 2026 – Jul 2026

- Managed and scheduled social media content across Instagram and Facebook using Meta Business Suite, improving consistency of brand posting.
- Conducted competitor analysis and keyword/hashtag research to strengthen the brand's digital presence in the automotive segment.
- Created marketing creatives, Reels, and promotional banners using Canva, and assisted with Reel scripting and content planning.
- Optimised Google My Business listings and drafted SEO-friendly content, meta titles, and descriptions for the company website.
- Assisted with Meta Ads Manager campaign setup, tracked performance using Facebook Insights and Google Analytics, and prepared weekly performance reports.
- Built a lead-tracking template and supported email/WhatsApp marketing campaigns for service reminders and promotional offers.

WORK EXPERIENCE

Parmar Auto House – Botad

2024–2025

- Supported daily operations in a family-owned agriculture spare parts business, handling 20–30 customer interactions per day.
- Assisted in sales coordination, inventory tracking, and order handling for 100+ products.
- Contributed to promotional and marketing activities, helping increase customer inquiries by approximately 10–15%.

EXTRACURRICULAR ACTIVITIES

Marketing Head – Parmar Auto House

2023–2025

- Planned and coordinated multiple local marketing activities and events, improving brand visibility.
- Assisted in promotional initiatives that supported customer engagement and repeat visits.(Optional stronger version)
- Led marketing coordination for 3+ promotional activities, supporting customer outreach and engagement.

PERSONAL PROJECTS

- PL Humanize — AI Text Humanizer | Parmar Labs**
bhavin8833.github.io/pl_humanize
Built an advanced AI-powered text humanization web app (bhavin8833.github.io/pl_humanize) under Parmar Labs. Features a multi-pass humanization engine that transforms machine-generated content into authentic, natural human writing — improving readability, tone, and bypassing AI detectors. Built using HTML, CSS, JavaScript, and integrated AI APIs.
- InvestLive — Real-Time Investment Simulator**
bhavin8833.github.io/InvestLive
Built a real-time investment simulation web app (bhavin8833.github.io/InvestLive) where users practice stock and portfolio investing with live market-style data. Developed using HTML, CSS, and JavaScript with a focus on UI/UX and financial data visualization.
- QuizMaster Live — Live Quiz Competition Platform**
bhavin8833.github.io/quizmaster
Developed a live quiz hosting platform (bhavin8833.github.io/quizmaster) allowing hosts to run real-time quiz sessions with participants. Features live scoring, leaderboard, timer, and multi-player support — built with web technologies.
- 3D Printer (Desktop Build)**
Built a fully functional desktop FDM 3D printer from scratch. Gained hands-on expertise in CAD modeling (Fusion 360 / SolidWorks), additive manufacturing, layer calibration, and machine assembly.
- Solar Panel Cleaning Robot**
Developed an automated robotic cleaning system to maintain solar panel efficiency by removing dust and debris, reducing manual maintenance effort significantly.
- Mini Hydraulic Plate Bending Machine**
Designed and assembled a small-scale hydraulic bending machine to understand hydraulic pressure application, mechanical force transmission, and fundamental machinedesign principles
